

- 1) Any activity on the Rusk Ranch Nature Center (RRNC) property must be within a project or regular activity approved by the board of directors. Appropriate processes for any activity include first coordinating with the project or activity manager or coordinator and following the plan for the project or activity as approved by the board of directors. Any person wishing to complete a project must develop a plan of activity that must be submitted to the board for approval. Once approved the coordinator or manager of the project or regular activity will manage that project or activity within the description presented and approved by the board of directors.
- 2) For board approval the project or activity must be within the strategic plan of the organization. Projects must have defined goals and outcomes that support the strategic plan as approved by the board of directors.
- 3) Activities such as work, maintenance, removal of trees, planting, or other activities that change the landscape, remove or add flora or fauna, build or remove structures are included in this policy.
- 4) Simple use of the property such as walking on the trails, use of playgrounds or visiting the nature center are not included in this policy, but may be addressed in other RRNC policies.
- 5) This policy applies to all volunteers, board members, regular members or anyone else who comes on to the RRNC property or acts in the name or on behalf of the organization.
