

Using this brochure

Whether you're a longtime resident or a new member of the Illinois Valley community, this brochure is meant to be a gateway to realizing a sustainable, healthy and fulfilling life here in our valley.

The organizations listed inside can link you with community, educational opportunities, and food and farming resources.

About us

The **Back from the Brink** project helps residents of the Illinois Valley take action aligned with drawdown principles to mitigate climate change, protect the health of our environment, and establish food and resource security in a sustainable way.

What is 'drawdown'?

Drawdown is a comprehensive strategy to avert climate catastrophe described by Paul Hawken in his 2017 book Project Drawdown (www.drawdown.org). Drawdown means reducing greenhouse gas emissions, supporting carbon sinks and fostering an equal society for all.
